

# BRANCH CAR DIFFUSER

The benefits of diffusing on your mind and body can be harnessed without water, batteries, or cords using the Branch Car Diffuser. It is the easiest way to diffuse Essential Oils in the car!

## OPERATING INSTRUCTIONS

- 1) Remove the cap.
- 2) Add 5-12 drops of essential oil to a wick.
- 3) Insert wick into the main chamber and replace the cap.
- 4) Use the Vent Clip to attach the diffuser to your car vent.
- 5) Add more drops to the wick as needed over time, and to switch aromas use a new wick.

Note: Aroma will vary depending on number of drops used and intensity of air blowing in vents. If your wick no longer holds absorbs new oil, it may be time to replace it. Replacement packs can be reordered at [www.revive-eo.com](http://www.revive-eo.com)

## TROUBLESHOOTING

Can't smell the aroma? Here are some possible causes:

- **The Branch may be closed:** Twist the cap so the white dots line up with the arrow on the main chamber. This opens the air flow on the Branch.
- **Car Air flow is too low/off:** Turn on, or increase the flow of air coming through the vent which the Branch is clipped to.
- **Oil has run out:** Reapply 5-12 drops on the wick.

## SAFETY

- Do not leave the product in the direct sun or high heat for prolonged periods. It may become very hot to the touch.
- This product is not a toy. Please keep it out of the reach of children.
- Avoid use of essential oils while driving that cause you to feel sleepy. It is not safe to operate a vehicle while drowsy.
