● PRECAUTIONS

- Read all instructions before using.
- Clean regularly as per Care & Maintenance instructions to avoid malfunction.
- Keep away from children and pets unless under direct adult supervision.
- Do not block the mist outlet. It may cause the body inside full of water and damage it.
- Avoid direct sunlight and keep away from heat sources and directly in front of air-condition.
- Do not tip the diffuser when in use. Tipping may cause oil to leak.
- Do not modify, disassemble or repair this product without permission.
- Please contact Revive Customer Service with any issues.
- Do not intentionally damage the product.
- If there is a peculiar odor, noise, abnormal heat, please unplug the diffuser from the power outlet quickly and stop using it.
- Do not use and/or store the product in wet, damp places, such as the bathroom.
- Essential oil may cause staining, if accidentally spilled on the unit, wipe it off immediately with a piece of cloth.
- Do not plug or unplug the product with wet hands. And do not touch the product when plugged in with wet hands.
- Do not block the air inlet when the diffuser is in use.
- Do not immerse in water.

● TROUBLE SHOOTING

Symptom	Possible Causes	Solution
Diffuser won't turn on.	Water level	Confirm there is enough water in the tank. If over the max line, it may also cause misting issues.
	Oil not diffusing	Ensure the water tank is filled with correct amount of water.
No mist or not misting properly.	A film substance is on the cover	Following maintenance instructions to clean the tank and air outlet.
	Intake not working	Check bottom of unit for dust and wipe with dry cloth.
Leaking.	Cover not on correctly	Make sure the cover is on correctly and do not tip unit.
	Environmental conditions	Temperature too high, too low or high humidity level may cause droplets to form.

● SPECIFICATIONS

Dimensions: 70mm x 155.5mm
Product Weight: 305g
Voltage: DC 5V/2A
Power: 10W
Time Mode: Continuous / Intermittent (30s on / 30s off)
Run Time: 3-4 Hours
Tank Capacity: 50mL
Mist Amount: 10-25mL/H
Coverage: 100 sq ft.
Materials: PP+Metal
LED Lights: 1 Color
Accessories: Type-C Cable, Watering Cup

This aromatherapy machine uses ultrasonic to atomize water and essential oil to release fresh fragrance.

● OPERATIONS

1. Check to make sure the diffuser is charged before using.

2. If charging is needed, connect the Type-C cable to a USB Port.

3. With the diffuser facing forward, turn the body cover counter clockwise to remove the cover.

4. Use the measuring cup provided to fill the water tank. Do not exceed the maximum water line. Add 4-5 drops of REVIVE essential oil (Do not fill or add oil while the diffuser is running).

5. After adding the water and the essential oil to the tank, place the body cover back and rotate clockwise to align the buttons on the front.

6. Press Mist Button: 

- 1st long press of the mist button (1.5 seconds) turns on diffuser and LED light - continuous mode
- 2nd press switches from continuous mode to intermittent mist mode (30s on/30s off)
- 3rd long press the mist button for 1.5 seconds to turn off the diffuser and light.

7. Light Button: 

- 1st short press the light button to turn off the light
- 2nd short press to turn on the light.

● NOTES

- The diffuser cannot be used without water.
- This unit will warn of low water by the light flashing twice and the diffuser will then shut down automatically.
- This diffuser will not charge if using voltage >5.8V.
- Charging - the light turns red when charging and green when fully charged.
- The concentration of mist may vary depending on type of water used (tap only) humidity, temperature and wind direction.
- Clean tank before using a different essential oil.

● CARE & MAINTENANCE

After using 5-6 times, or 2-3 days, please clean the unit as follows:

1. Turn off the diffuser and make sure it is not plugged in.
2. Remove the cover and pour out any remaining water from the drain side of the tank.
3. Wipe with soft cloth or wet tissue to clean the residual oil.
4. If there is any dirt in the air outlet, please remove the container cover and clean it.
5. Never use other acids, enzymes or detergents, as this may risk poisonous gas to be created or cause a malfunction.
